To solve this puzzle you need to find your "magic" number - so, count the number of letters in your first name, and if the number is 6 or more subtract 4. If the number is less than 6, add 3. Start at the upper left-hand corner and check your "magic" numbers left to right. Then read the message that the letters (under your magic number) give you.

CATS IN THE WHITE HOUSE

Since Socks arrived at the White House, much has been written about animals that have lived there. We have often heard the tales of famous canines who lived on Pennsylvania Avenue, but how much do you know about felines that have resided there? Try the crossword puzzle above to see how much you can learn about Presidential cats.

NOTE: Washington had a cat, but not in the White House.
